Pica BIG Ink® Smart-Use Marker XL

Pica BIG Ink®

Smart-Use Marker XL

The combination of Smart-Use advantages makes it so unique!

SMART Permanent marker and deep hole marker in one

- Combines strong and highly visible markings with pinpoint accuracy even through drill holes from $\varnothing \geq 5.0$ mm
- Suitable for all glossy and dry surfaces, such as glass, metal, plastic, carton ...
- **Special soft and shape-sturdy tip:** Enables excellent ink discharge for quick and strong markings and provides a unique writing experience.

SMART Always and everywhere at hand

- Thanks to the innovative quiver cap, the marker is always at hand, no matter where you are. This saves valuable time, because nothing is more annoying than searching for a tool.
- **One handed handling:** Quick marking with only one hand, because the quiver cap always stays on the trousers so the second hand remains free to hold the workpiece.

Versatile use

Also available on blister

SMART The "TWIST & REVIVE" writing tip for life extension

Analyses* have shown that nearly **40%** of supposedly empty ink markers still contain more than **70%** of the ink. This comes from unnecessary and premature discarding of the markers after improper use, such as:

1. leaving the marker open without cap for too long - the tip dries out **
2. marking on wet or dirty surfaces - the ink flow is disturbed

• Pica BIG Ink® is the solution to this problem, because the "TWIST & REVIVE" writing tip can be completely turned around. This allows quick revival after improper use

• The large XL ink reserve can thus continue to be used up

• The stainless steel tube around the writing nib ensures clean fingers

► This protects the environment and the budget

This is how it works

Pull metal tip out of marker with two fingers, rotate 180°, put it back again - **continue marking immediately.**

* Own analyses of numerous discarded markers

** Attention for BIG Ink® in white: To prevent irreversible drying of the tip, make sure that the marker is left without the cap for a maximum of 2 minutes

INSTANT-WHITE

SMART The first deep hole marker in white

INSTANT-WHITE Ink: Marks immediately without shaking and without pumping

- Intense opacity on dark materials
- Permanent water-based ink
- Water- and smudge-resistant markings after approx. 20 seconds
- The white marker should always be stored lying horizontally

FAST-DRY Black, red and blue inks are water- and smudge-resistant after only approx. 5 seconds

- Permanent alcohol based ink
- Light and weather resistant markings
- Can be removed from glossy surfaces with alcohol
- Free from xylene and toluene
- Long-lasting and economical because refillable

Strong product presentation for your consulting counter

Stand alone in the display, or in best company with other Pica fast movers, in a PICA COMPETENCE CENTER
